

Finding Registration

Registration is now available in the navigation menu:

To manage people and swag, click "Register Your Party"

To book camping, click "Book Camping"

Register Your Party

First, confirm your email address. You will be the central point of contact for your entire party. If your email address is not correct - you will not get important updates. To update, click "Change", update the email address on the following screen, click "submit" and then use the menu navigation to return to "Register Your Party"

Step 1 - Confirm Your Contact Email Address

This is how we contact your registration group with important event updates, camping confirmation, etc. Review your email details below & update if needed.

You will be the primary contact person for your registration group. All event updates will be sent to you. If others in your party need to receive the information it will be your responsibility to provide it.

At the bottom are 'Submit' and 'Cancel' buttons. A curved arrow points from the '[change]' link in the top box to the 'Email Address' input field.
